Mirror & Component Mounts

Manual Micro-positioners

Motorized Positioners

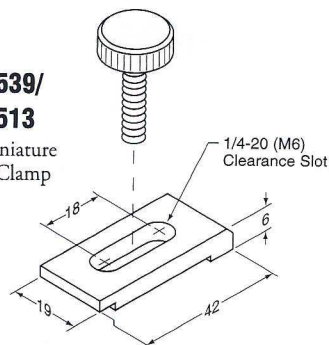

53-2135

Heavy Duty Table Clamp

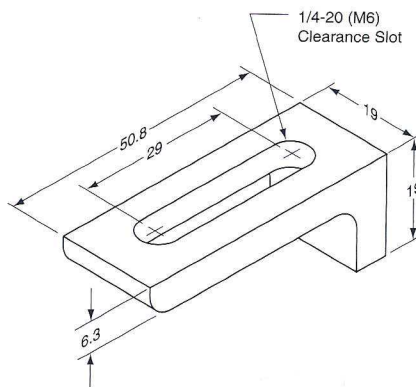

24-1539/ 24-1513

Subminiature Table Clamp

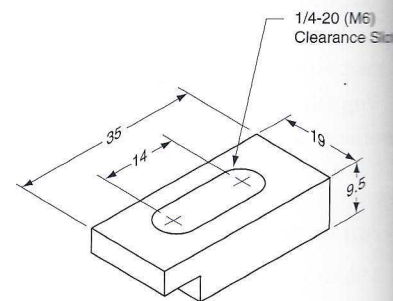

53-2176

Angled Table Clamp

53-2168

Compact Table Clamp

Ealing's new range of Fixed Table Clamps includes the designs shown. They are ideal for clamping rails and other products to optical tables or breadboards. All designs incorporate a long machined slot which has clearance

for 1/4-20 or M6 screws and allows for flexibility in positioning the clamp. The angled clamps are ideal for holding optical rails firmly onto a table top surface.
